***MATTRESS SHOPPING GUIDE***

# WE LOVE SLEEP

## The Benefits of a Great Night Sleep

### Improves Memory

Sleep can strengthen memory or "practice" skills learned while awake.

### Live Longer

Getting enough sleep boosts one's immune system. In general, people who sleep well live longer.

### Sharpens Mind

Brain reorganizes while sleeping. It sharpens attention and develops creativity.

### Lessens Stress

Sleep reduces levels of stress and takes better control of the blood pressure.

### Improve Performance

Getting enough sleep reduces daytime fatigue and increases stamina which results to better athletic performance.

# Sleepshop PILLOWS

Your Sleep Care Specialist

**Soft Escape Hydragel Pillow** complement your world-class sleep with the Soft Escape Hydragel Pillow. Specially infused with Hydragel® beads which absorb heat, maintaining an ideal sleep temperature. Its plush comfort offers a refreshingly cooler, comfortable sleep. For enhanced comfort, it is encased with smooth, microfiber cover. Treated with Sanitized®; it protects against bacteria, odor, mildew and dust mites.

**Fiberfill Pillow** FiberSoft Pillows are irresistibly soft and fluffy! Made from a combination of polyester fiber and light, hypoallergenic foam for the ultimate plush comfort. This pillow is hypoallergenic. This pillow is available in different sizes.

**Posture Med Neck Contour Pillow** The Posture Med Pillow is recommended for neck pain and is made of high quality foam specifically designed by a doctor for neck pain. The foam uses a combination of properties that provide the perfect blend of support and comfort.

# MATTRESS INNOVATION

## EDGE SUPPORT

Edge Support strengthens mattress edges which reduces the "edge roll-off", giving you more room to stretch.

## BONNELL COIL

Hourglass-shaped springs that provide support in innerspring mattresses. The wide portion of the hourglass flexes easily and allows the body to sink in when weight is applied, providing responsive initial comfort.

## HIGH RESILIENT FOAM

These foams contour to the body exceptionally well, enables extreme elasticity and optimal supporting force.

## POCKETED COIL

Individually wrapped pocket springs that offers supreme motion isolation, support and longevity.

## HIGH DENSITY FOAM

A type of foam that is packed tightly together to create a cozy feeling that you can't get with most innerspring mattresses.

## OPTIMUM COIL

Conforms to your body's unique shape and offers more contoured support and better movement isolation.
